Dear (Customer Name):

Thank you for your purchase of seed or microbial product from Corteva Agriscience. Included are the 2021 Terms and Conditions of Purchase, the Corteva TUA Update Notification, and a sample of the most current Corteva Technology Use Agreement (TUA). Your Corteva license number is (need to autofill/match) which can be applied to Corteva microbial or seed products.

The TUA serves as an agreement between the customer and Corteva demonstrating that the customer understands and agrees to follow all stewardship and legal responsibilities related to their purchase. The TUA protects two major components: (1) technology use (e.g. Enlist™ System, Bt Corn, etc.) and (2) intellectual property rights (e.g. germplasm, traits, patents and other proprietary know-how). Corteva makes substantial investments to bring new traits, technology and products to the market. It is important to protect these investments so Corteva can continue to fund research and business development initiatives.

The Corteva TUA is an evergreen document which grants customers access to all current and future product offerings without the need to sign additional TUAs. The **Update Notification** is a required mechanism to inform customers on changes to the TUA along with important product usage information in which customer compliance is required. The Update Notifications will be delivered annually and will either be distributed electronically or via postal mail and will also be made available on <http://www.traitstewardship.com/>.

The requirements outlined above will act as an amendment to the TUA previously signed and receipt of these requirements constitutes acceptance. Update Notification rejections can be submitted by following the steps below. **Keep in mind rejecting the Update Notification will result in your TUA being nullified resulting in your inability to purchase Corteva seed products or Corteva Sourced Technology in the future.**
